

CHUCK-EEZ® Power Chuck Lubricant

Double to Triple Clamping pressure keeps work piece clamped in place.

- Provides boundary lubrication protection.
- Lowers friction and wear.
- Assists in wear-in of new chucks
- Lowers Maintenance costs
- High resistance to centrifuge force.

CHUCK-EEZ® is a heavy duty boundary lubricant designed to increase the clamping pressure of power chucks. CHUCK-EEZ® is formulated with a high percentage of molybdenum disulfide to reduce seizing, galling, fretting wear and lower friction under conditions of extreme pressure. Rust and oxidation inhibitors are incorporated to maximize complete rust protection during the life of the lubricant. CHUCK-EEZ® can be used on power chucks, standard chucks, fasteners, press fits and wear-in guides and ways.
